

Primary Benefits

- Educates, enhances and balances the immune system
- Provides the easiest and most impactful way to share 4Life Transfer Factor, in a 1 oz. gel pack (no refrigeration necessary!)
- Features 4Life's revolutionary Tri-Factor Formula (Transfer Factor E-XF™ and NanoFactor™ extract)
- Includes a potent fusion of antioxidant-rich fruits, including açai, pomegranate, blueberry, elderberry, and grape

A Burst of Life

RioVida Burst is the one-and-only transfer factor supplement available in an edible gel. It provides the benefits of 4Life Transfer Factor Tri-Factor Formula along with an antioxidant-rich juice blend of açai, pomegranate, blueberry, elderberry, and purple grape. Portuguese for River of Life, RioVida Burst is a delicious way to juice up your day.

What makes this product unique?

- Transfer factors are tiny messenger molecules that transfer information from one entity to another, such as between a breastfeeding mother and her newborn infant.
- NanoFactor extract is 4Life's patent-pending extract of immune-enhancing nanofraction molecules. It helps fine-tune immune system function so that immune cells know when to act, how to act, and when to rest.
- Independent studies show that 4Life Transfer Factor Tri-Factor Formula can boost immune system effectiveness by raising Natural Killer cell function an impressive 283 percent. Natural Killer cells are on the front lines of your immune system.
- This is the first transfer factor product available in an edible gel form.
- 4Life Transfer Factor products are featured in the 2003, 2004, 2005, 2006, 2007, and 2008 Physicians' Desk Reference for Nonprescription Drugs and Dietary Supplements, the standard supplement guide for physicians that can be found in physician offices, hospitals, and pharmacies throughout the United States.
- Transfer Factors from chicken egg yolks are protected by U.S. patent 6,468,534; Transfer Factors from cow colostrum and chicken egg yolks are protected by U.S. patent 6,866,868.
- Açai berries provide off-the-chart antioxidant ratings, amino acids, fatty acids,

and more.

- Blueberries support digestive system health and work to support normal inflammatory responses.
- Elderberries work to neutralize free radicals, support your cardiovascular system health, and support your body's ability to manage stress.
